The Board of Trade have examined and tested, with reference to the material of which and the principle on which it is constructed, a pattern of a flow meter used in conjunction with a hydraulic petrol delivery installation, of the form shown herein, which has been submitted to the Department under the provisions of Section 6 of the above Act, and have issued a Certificate No. 568 dated 16th July, 1931, that the pattern is not such as to facilitate the perpetration of fraud when used for the measurement of petrol and other liquids which float upon and do not mix with water.
